

Save the date! EUNIS upcoming events

EUNIS Annual Congress: 5 - 7 June 2019

[EUNIS 2018 Annual Congress](#) held at the Sorbonne University, Paris, France has just ended up and the preparations for the next one are already ongoing.

Save the date: 5 - 7 June 2019 and join us in **Trondheim, Norway** next year!

As always, the Congress presents an opportunity for sharing of experience amongst international specialists, users, researchers, decision-makers, and teaching staff from all over Europe. The event provides an ideal audience to present and publish the latest results of research, development, and deployment of Information Technology in HEIs. **Don't miss it!** You can already visit the [EUNIS 2019 Congress](#) website!

EUNIS IT Leaders Retreat: 2 - 4 October 2018

Save the date for the EUNIS IT Leaders Retreat that will be held on **2 - 4 October 2019** at Royal Abbey of Santa Maria de Poblet, Spain. The title of the event is: *Defining our place in the future: The transforming role of IT and IT Leaders in HE* and it is targeted to CIOs and IT Leaders in Higher Education. More information soon.

EUNIS IT Leaders Retreat

WEBINAR: 25 June 2018
16.00 -17.00 CEST

Webinar: *Leaders & Influencers Discuss Technology Efforts and Challenges Within Higher Education*

Time: **25 June 2018, 16.00-17.00 CEST**

EUNIS is partnering with corporate member Avixa to offer a webinar where a range of technology managers and AV professionals will discuss expectations, best practices, advances, solutions, and more for end-user engagement and experience within higher education.

The webinar is free to attend. Please use [this link](#) to **register**.

The June 25 event will examine:

- What best practices are being developed when implementing new technologies that change the methods and direction of instruction?
- What makes technology user-friendly? What needs to be considered for a good user experience? How can user behavior be guided?
- How can collaboration and connection be simplified?
- Convergence of IT and AV – what industry roadblocks have been encountered and how to overcome them.
- How are colleges and universities facing the challenge of rapidly growing student populations?
